RE: Amendment of Year End Report (7/1/97-12/31/97)

Dear Ms. Baker:

Enclosed is the amendment report requested by Ms. Tiell in the letter we received from the Commission dated March 31, 1998. This amendment report, which covers activity during the second half of last year, addresses the questions raised in the letter. Specifically, we have amended the report as follows:

- The discrepancy involving the Column B figures in this report and the Column B figures in the previous report has been resolved. This error was due to an amendment filed in September of last year which was inadvertently ignored during the preparation of our Year End report.

- The error involving activity which appeared to have taken place outside of the coverage dates has been corrected. This resulted from contributions being reported according to the date on the check, which is of course incorrect. We have adjusted these dates to accurately reflect the date upon which we took possession of the contribution.

- In the original Year End report, we inadvertently failed to provide aggregate contribution amounts for PAC contributions. This has been corrected on the enclosed report.

- We have removed, at your direction, all contributions for amounts less than \$200.00 which were mistakenly entered with those above that amount. These have been included in the unitized figures on the Detailed Report of Receipts and Disbursements.

- There are a few remaining contributions for which we have no address or occupation and employer information. We feel that best efforts as described in F.E.C. regulations have been implemented in an attempt to locate and report this information.
